

The mailbox should be a Standard U.S. Postal Service approved type and securely attached to the post. A treated wood 4 inch by 4 inch post is recommended, or a minimum 1½ inch to a maximum of 3 inch diameter light gauge galvanized steel hollow pipe. Prior to installation, property owner must call J.U.L.I.E. at 1.800.892.0123 at least 48 hours beforehand so underground utilities can be located. The residence address number should be installed with 2 inch reflective numbers on the side of the mailbox. Names are optional.
